The image shows a web application for a hospital management system. On the left is a dark sidebar with the logo "HOS hospital". It has three menu items: "Patient Information" (with an info icon), another "Patient Information" (with a document icon), and "Patient Information Report" (highlighted in blue with a report icon). At the bottom of the sidebar is a user profile for "Rakesh Reddy" and notification icons. The main content area is titled "Patient Information Report" and features a table with columns: Name, Age, Gender, and Address. There are three rows of data; the second row is highlighted. Below the table, it says "Showing 3 of 3". On the right side, a modal window is open, displaying details for a selected patient. The modal has navigation arrows at the top left and "Edit", "Duplicate", and "More" buttons at the top right. The details include fields for Name, Age, Gender, Address, Phone, Email, Attender Name, Attender Phone, Doctor, and Disease. At the bottom of the modal is a link to "Add a comment".
